

Check your AEDs from anywhere

With the CheckAED® app, you can quickly and efficiently perform and input routine inspections from anywhere. Simply download the app to your smartphone or tablet. When it's time to check each AED, inspect its status indicator and log it in PlusTrac with a single touch. If anything needs correction or replacement, your program manager will be notified right away.

PlusTrac™

ZOLL®

KNOW IT'S MANAGED.
KNOW YOU'RE READY.

It's easier than ever to manage a Rescue Ready AED program

Increasing a sudden cardiac arrest victim's chance of survival requires **more than just placing an AED on the wall.**

- Devices must be **ready.**
- Responders must be **ready.**
- Programs must be **compliant.**

PlusTrac Keeps You on Track

PlusTrac is an interactive, web-based solution that enables seamless, reliable AED management for programs of all sizes. From registering your AED and documenting your responder training to recall notifications, legislative updates, and AED prescriptions, PlusTrac helps streamline administration and provides visibility to all facets of your program.

Whatever brand of AED you've chosen, PlusTrac will help you manage your whole program.

Studies show that well-implemented AED programs can **significantly improve survival rates.**¹

The Data You Need, at Your Fingertips

Managing and tracking AED training, inspections, certifications, compliance, and other details can be complex and time-consuming. PlusTrac makes it easy. An intuitive interface enables easy navigation to access the information you need when you need it. And customized reporting features allow you to collect and present program data the way you need it.

A Scalable Solution for Organizations of All Sizes – from 1 AED to 1,000

Regardless of how many AEDs or rescuers are in your program, managing them does not need to be complex. PlusTrac can help you with a single AED in a single facility or hundreds of AEDs in multiple facilities with thousands of rescuers to train.

Roles Designed for Collaboration

Keep track of your team's work and progress with roles designed for collaboration: Site coordinators, inspectors, medical directors, and administrators can each find and access the areas of the software pertinent to their responsibilities. The most relevant data displays on an interactive dashboard, reducing the need to navigate through the site for important information.

MEDICAL DIRECTION

- State and local compliance guidance
- AED maintenance intervals
- Post-use medical reviews

REAL-TIME INFO

Remote WiFi reporting for connected ZOLL AED 3® devices and Powerheart® G5 AEDs with Rescue Ready® Monitor

AUTOMATIC ALERTS

- Pad and battery expiry notices
- Responder certification expirations
- Manufacturer recalls (any device)

USER-FRIENDLY DASHBOARD

- Interactive management console
- Easy access to program status
- High-level overview with access to more detailed information
