

Training Support

Simplify your training efforts by using ZOLL E-learning. E-learning allows for complete familiarity with ZOLL products, so providers are always ready to respond with confidence.

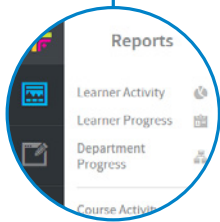

Access Anytime

ZOLL E-learning is available 24 hours a day, 7 days a week. Once assigned modules are completed, the modules are always available for a quick refresher. There are no expirations or time limits, nor any capacity limits. ZOLL E-learning is ideal for training a large number of staff at once.

Site Content

There are several self-paced modules that focus on different aspects of ZOLL products. Some courses include in-service videos, while others are interactive modules focusing on how to use the device or product. Courses are added as new products and features are introduced to the market.

Track Progress

Staff compliance and course completion can be tracked by facility administrators. Reports can be generated, exported, and printed as needed.

System Requirements

A connection to the Internet is required to view any course. Use the latest versions of browsers to view the courses. The HTML5-based user interface adapts to different hardware devices, from conventional desktops and laptops to tablets and smartphones.
