

ACCESSORIES TO SUPPORT  
**YOUR RESCUE**

# SINGLE-USE RESCUE ACCESSORIES

Long-lasting Between Rescues

## Adult Electrodes with ICPR for Powerheart G5

Non-polarized adult pads with Intellisense® CPR (ICPR) Feedback, for use with the Powerheart® G5 AED, deliver defibrillation and CPR feedback in accordance with the AHA Guidelines.

Part # XELAED002B

## Adult Electrodes for Powerheart G5

Intellisense non-polarized pads with patented Rescue Ready® technology and embedded circuitry communicate presence, functionality, patient type, energy and CPR protocol, pad expiration, and other vital information directly to your Powerheart G5.

Part # XELAED001B

## Pediatric Electrodes for Powerheart G5

Intellisense non-polarized pads for delivery of pediatric defibrillation. Recommended only for patients 8 years of age or younger, or weighing less than 55 pounds (25kg).

Part # XELAED003A

## Powerheart G5 USB (A-to-A) Data Cable

The Powerheart G5 USB (A-to-A) data cable enables data exchange and configuration of your Powerheart G5 via PC.

Part # 50-01568-01

## Universal AED Ready Kit

The Ready Kit includes non-latex gloves (medium and large), a razor, medical shears, two paper towels, and a one-way CPR mask, providing everything you need to respond to a cardiac arrest. The kit attaches easily to the outside of both the Powerheart G3 and G5 semi-rigid carry cases.

Part # UKIT001A

## Intellisense Battery for Powerheart G5

Non-rechargeable lithium battery communicates performance condition, age, storage temperature, and other vital information directly to your Powerheart G5. Includes a 4-year battery replacement program.

Part # XBTAED001A

# ZOLL® ResQSystem™ Cabinet

One Location. Many ways to help.

Part # 8911-005050

Spacious, centrally located cabinet for AEDs and trauma kits

- Quick and easy access
- AED and medical-supply graphic indicators on front and sides
- Charging port for Mobilize™ Comprehensive trauma kit ensures device is charged
- Suitable for all types of organizations

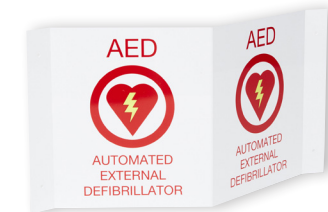

## AED SIGNAGE

Create High Visibility

### AED Sign Package

3D wall sign and 8.5" x 11" wall-mounted sign to improve AED visibility

Part# 8000-0825

### Semirecessed Wall Cabinet

Part # 8000-001257

Meets ADA (Americans with Disabilities Act) requirements.

Dimensions: 14" x 14" x 3.5"

### Fully Recessed Wall Cabinet

Part # 8000-001258

Meets ADA (Americans with Disabilities Act) requirements.

Dimensions: 14" x 14" x 1.5"

### 9-inch Standard Wall Cabinet

Part # 8000-0855

Dimensions: 17.5" x 17.5" x 9"

### 7-inch Standard Wall Cabinet

Part # 8000-001256

Dimensions: 17.5" x 17.5" x 7"

### Strobe for Standard Surface-mounted Wall Cabinet

Part # 8000-001259

### Strobe for Recessed Wall Cabinet

Part # 8000-001267

## WALL MOUNT

Simple and Universal

This metal AED wall-mounted storage sleeve is an economical and attractive AED storage device that keeps your AED in an easily accessible location. For use with all Powerheart AEDs.

### Wall Storage Sleeve

Part# 180-2022-001

## CARRY CASES

### Rugged and Portable

Choose from four different carry case models to safely carry the Powerheart G5 defibrillator: the standard carry sleeve, semi-rigid carry case, hard-sided carry case, and rescue backpack. The hard-shell cases are water resistant, with an ingress protection (IP) rating of IP68 to protect against dust and water.

#### Powerheart G5 Carry Sleeve

This soft-sided carry sleeve with adjustable shoulder strap for the Powerheart G5 AED includes zippered pouch for storage of extra pads and other rescue accessories.  
Part #XCAAED008A

#### Powerheart G5 AED Premium Carry Case

This semi-rigid carry case features an adjustable shoulder strap and back pocket that provides space for extra defibrillation pads, making it easy to transport from place to place.  
Part #XCAAED007A

#### Powerheart G5 AED Hard-Sided Case

Hard-sided, water-resistant, lockable case with interior foam secures your AED in rugged environments and makes it easy to transport with reliable protection from bumps, drops, and the elements. 2 keys are included.

Part #XCAAED003A

Not available in Europe.

#### AED Rescue Backpack

Rescue backpack for ZOLL® AEDs features outer pouch that holds the Powerheart G5. Main compartment features three removable, stick-in-place pouches.

Part# 8000-001468-01

## TRAINER AND ACCESSORIES

### Simulate a Rescue with ICPR

The Powerheart G5 Automated External Defibrillator (AED) Training Device is an excellent tool for teaching basic AED rescue skills and correct defibrillation procedures. It gives students the opportunity to practice CPR and familiarizes them with the operation of Powerheart AEDs.

- Simulates different rescue scenarios and enables students to apply defibrillation pads, practice AED use, and perform CPR compressions on a manikin.
- The clear, instructive voice and metronome guide the user through the rescue scenario.
- Reusable training pads enable instructors to provide training for both adult and pediatric rescues.

Part# 190-5020-002

Also available without Intellisense CPR training pads:

Part# 190-5020-001

*For training purposes only; not for use on actual patients.*

#### Powerheart G5 AED Replacement Training Pads with ICPR

Powerheart G5 training pads with CPR feedback device simulate CPR administration and hands-on rescue scenarios with the Powerheart G5 Trainer.

Part# XTRPAD005A

*For training purposes only; not for use on actual patients.*

#### Powerheart G5 AED Replacement Training Pads

Powerheart G5 training pads simulate hands-on rescue scenarios with the Powerheart G5 Trainer.

Part# XTRPAD004A

*For training purposes only; not for use on actual patients.*

#### Powerheart G5 Trainer Replacement Remote

Allows trainers to change the trainer AED settings during hands-on sessions.

Part# 190-2080-001

#### Powerheart G5 AED Replacement Pediatric Training Pads

Powerheart G5 pediatric training pads simulate hands-on pediatric rescue scenarios with the Powerheart G5 Trainer.

Part# XTRPAD006A

*For training purposes only; not for use on actual patients.*
